Industry leading productivity solutions in Office 365 deserve industry leading training with Big Cloud

## Personalized Training Portals

Different users on your team have different training needs.

With persona driven portals, each user will experience interactive training that is tailored just for them and their needs.

Robust and Flexible Training

Big Cloud moves beyond traditional video-only training that can be lengthy, ineffective, and frustrating to your users.

We accommodate the different learning styles of your team by supporting all types of online content – including interactive walk-throughs, how to guides, videos, and more.

Guided Learning Paths

With structured learning paths, Big Cloud guides your users through every step of their learning journey from first steps of on-boarding to becoming a power user.

Analytics for Tracking and Reporting

Big Cloud transforms usage reports into actionable insights on how your team is adapting to change and where they need additional help.
